

Undergraduate Research Program

Overview of the program:

The undergraduate research program was initiated in year 2002 by the HOD Dr Harikiran and over the years it has become more structured and robust. Every year, all the final year undergraduate students of our institutions participate in an Undergraduate Research Program conducted by the Dept of Public Health Dentistry. All the students are divided into 6-8 batches comprising 8-9 students. They then follow the rigorous steps of designing, writing and completing their research project under the able guidance of their respective faculty guides. As the students undergo the research methods, they get trained in various skills - Searching and reviewing literature, Critical thinking and analysis skills, research writing skills, research methods and presentation skills.

Dept. of Public Health Dentistry LIST OF UG RESEARCH PROJECTS

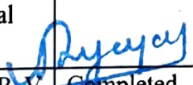

Ongoing Projects	Completed Projects	Total
–	62	62

List of UG Research Projects			
Sl.no	Research projects	Project Status	Student Batch Year
1.	Early clinical exposure for dental undergraduates – designing the clinical learning experience at DAPM RVDC – By Dr Jyotsna	Completed	2019
2.	Creating a structured Portfolio for appraising dental undergraduate competence – By Dr Deepti	Completed	2019
