New MOU's and MOU renewal

On March 8, 2019, the Central Chest Institute of Thailand (CCIT) and Showa University School of Medicine concluded a memorandum of understanding (MOU) at Showa University Koto Toyosu Hospital. This is our first MOU with a medical institute that is not attached to a medical school.

After the signing ceremony, Dr. Yamaguchi (Professor, Koto Toyosu Hospital Cardiovascular Diseases Center) gave our visitors a tour of Koto Toyosu Hospital. They saw our advanced operating rooms and our ICU beds that are equipped with the eICU monitoring program (we are the first hospitals in Asia to introduce this system).

Showa University has already sent two doctors from Koto Toyosu Hospital Cardiovascular Diseases Center to study abroad at CCIT and two nurses to participate in short-term training programs there. With the conclusion of this new MOU, a wide range of exchange of activities are expected in the future.

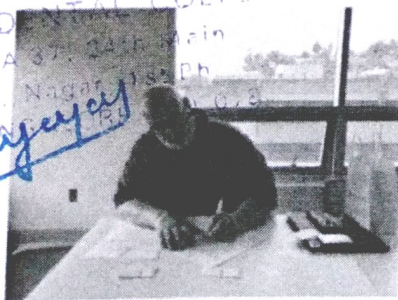

On March 29, 2019, a new memorandum of understanding (MOU) was concluded between D.A. Pandu Memorial R.V. Dental College & Hospital (DAPMRVDC; Bangalore, India) and Showa University School of Dentistry. This marks the 18th exchange agreement signed by our School of Dentistry, and the first one with a dental school in India.

After the signing ceremony concluded, Dr. Iyengar (Principal, DAPMRVDC) visited the International Exchange Center, where she toured the dormitories available for our international postgraduate fellows and exchange students, and discussed more about future exchange possibilities.

Three faculty from DAPMRVDC have already studied at Showa University as international postgraduate fellows. With the conclusion of this MOU, DAPMRVDC faculty now have greater opportunity to participate in that program. This agreement also opens the possibility of student exchange.

Showa University held our annual Portland State University (PSU) Summer Program from July 24-August 8. Dr. Hashimoto (Professor, International Exchange Center) also attended this year's PSU program as a faculty chaperone. During her visit to Portland at that time, Dr. Hashimoto helped conclude a MOU renewal between PSU and Showa University. Next year marks the 15th anniversary of the PSU Summer Program.

During the MOU signing, she discussed with Ron L. Witczak, Executive Director of Office of International Affairs at PSU, about organizing a conference to commemorate this wonderful achievement!

2019 certificate award & farewell party

On March 5, 2019, Showa University held their annual Certificate Award Ceremony and Farewell party for the international fellows completing that year's

International Postgraduate Program. 10 fellows from 5 countries (Bangladesh, China, Egypt, Madagascar, and Vietnam) received their certificate awards from President Ryohei Koide at the ceremony. Also attending as honored guests were representatives from the embassies of Bangladesh, Egypt, Madagascar, and Vietnam.

Afterwards, a farewell party was held to celebrate the international fellows' achievements. Dr. Yoshio Ogawa, Dean of School of Medicine, started the party with a toast congratulating the fellows. During the

party, each fellow was introduced by their advisor, who told the audience of their contributions and achievements during their one-year

stay. Finally, one of the international fellows, Dr. Fidy Randriamihajamalala of Madagascar who studied at the Department of Anesthesiology, offered words of thanks and gratitude on behalf of the other fellows.

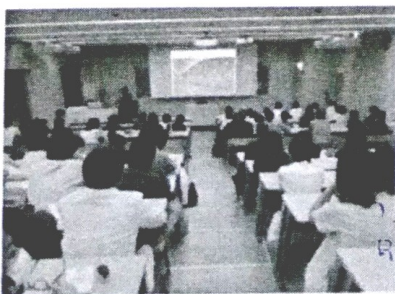

Visit from Kyung Hee U. dentistry dean

As part of exchange activities between Kyung Hee University in Seoul and Showa University, Dean Kung-Rock Kwon of the School of Dentistry was invited to our university on March 6 and 7, 2019, to give a guest talk about his dental school's current exchange activities at our university's "International Exchange Seminar". Kyung Hee University has had a sister school agreement with our university since 2000.

Showa University Dental Hospital, and afterwards, gave his seminar talk to a large crowd of faculty and students. On the next day, he attended Showa University's graduation

ceremony and School of Dentistry Degree Award Ceremony. As a special guest at the Degree Award Ceremony, Dean Kwon offered words of advice to our graduating dental students and their families.

Miyazaki

On the first day, Dean Kwon met Dr. Miyazaki, Dean of School of Dentistry, and the International Exchange Center faculty to discuss future exchange possibilities. He then toured

Along with meeting many of our dental faculty, Dean Kwon also could reconnect with two of our graduating dental students who participated in a foreign clinical elective program at Kyung Hee University last year.

Lecture by alumnus Dr. Moritani

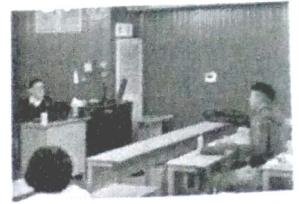

As part of our "Career Support Center/International Exchange Center Seminar" series, we invited School of Medicine alumnus Dr. Toshio Moritani to give a talk at the Hatanodai campus on April 1, 2019. Since his 30's, Dr. Moritani has worked as a researcher and professor throughout the U.S. – first at the University of Rochester Medical Center, then the University Iowa, and currently at the University of Michigan as a Professor of Radiology.

Many students were eager to hear of his experiences working in the U.S. and living in an English-speaking country. Especially for those students interested in working/living in the U.S., this seminar offered them a rare opportunity to directly ask questions to someone who accomplished such a goal. Common questions topics included advice or strategies for improving English and for taking the USMLE,

the test required for medical licensure in the United States.

This seminar proved so popular that a second seminar was held on June 16! Students had the opportunity to ask even more questions and new students who couldn't attend the April 1 seminar had another chance to listen to and meet Dr. Moritani. We will continue to host this seminar series for our students and residents and look forward to inviting Dr. Moritani back to Showa University again soon!

Visit from UCSF medical education faculty

From April 22-24, 2019, Professor Anna Chang and Associate Professor John Davis from the University of California, San Francisco (UCSF) Department of Clinical Medicine visited Showa University to discuss their newly revised medical curriculum at UCSF and to offer feedback about Showa University's medical student education.

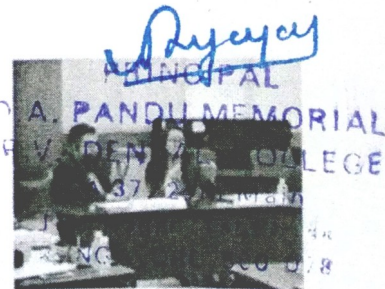

During their visit, Dr. Chang and Dr. Davis gave a presentation on their medical school's curriculum to our Dean of School of Medicine and other faculty at our university, followed by an extensive discussion about medical education. They then toured our hospitals, where they talked to students on clinical rotations about their experiences and impressions of their education in the hospital, and listened in on

medical students' lectures. They also visited the International Exchange Center, where they

heard about the various international exchange opportunities for our medical students, such as our study-abroad programs and activities organized by our center for students to interact with our exchange students and international guests.

At the end of the visit, Dr. Chang and Dr. Davis offered their advice and suggestions on ways to improve our medical school curriculum and discussed possible issues – some common in both countries, some unique to Japan's educational system – with our faculty.

Visit from U. of Florida pharmacy students

From April 13-15, 2019, the School of Pharmacy and IEC welcomed 11 pharmacy students from the University of Florida and their leader, Dr. Randall Doty, who visited us last year.

On their first day, the group went on a tour of our Hatanodai campus that included the International Exchange Center, where they watched an introductory video about Showa University. Later, Prof. Hashimoto and Assoc. Prof. Hiraizumi from the IEC also introduced the students to the Japanese tea ceremony and performed a tea ceremony in front of them. Afterwards, the students had the matcha and traditional Japanese sweets and some tried to make macha by themselves! The first day

ended with a joint student seminar and small party with our pharmacy students, where the UF students had the chance to interact and enjoy time with our pharmacy students,

On the second day, the group toured our main hospital and the hospital pharmaceuticals department. Here, they learned more about role of pharmacists in Japan. On the final day, they toured the School of Pharmacy Herbarium, where they learned about the use of natural medicines and medical plants in Japan.

It was a great visit, and we will soon conclude a formal exchange agreement with the University of Florida and hope to send a group of our pharmacy students there in the summer!

Pharmacy summer exchange program

Since 2011, the School of Pharmacy has invited exchange students from Albany College of Pharmacy and Health Sciences (ACPHS; U.S.A) and Mahasarakham University (MSU; Thailand) to participate in a summer exchange program together. The benefit of such arrangement is that students can interact with people from a variety of backgrounds at the same time and learn about the culture and pharmacy system of three countries – Japan, U.S.A., and Thailand.

The International Exchange Center also organizes several educational and cultural activities during the program to encourage exchange between these students and Showa University students. This year included a demonstration on Japanese tea ceremony and

lesson on medical benefits of green tea, a one-day tour to Hama Rikyu gardens and Asakusa, and the chance to attend a professional baseball game at Tokyo Dome.

This year, students from the Faculty of Pharmacy at Taipei Medical University (TMU), which concluded an exchange agreement with the School of Pharmacy in 2017, were also invited to participate in the program. While they could not attend at the same time as the ACPHS and MSU students, 2 TMU students participated in a modified program for 3 weeks. During their stay, they attended a Bon Odori dance festival at Hatanodai campus with IEC faculty and staff.

From next year, the pharmacy school aims to arrange a program time that exchange students from all three university can attend together and the IEC will continue to create new activities and events to foster student exchange.

2019 welcome party for international fellows

On May 20, 2019, Showa University celebrated the newly arrived international postgraduate fellows at the 2019 Welcome Party for International Research Fellows. This year's event was held at the recently built Showa University Kamijo Memorial Hall, which coincided with the 90th anniversary of Showa University.

From this April, 11 fellows from Algeria, Bosnia and Herzegovina, China, Egypt, Madagascar, Myanmar, and Thailand arrived to Japan and have already started their training in our hospitals and research laboratories. Showa University President Ryohei Koide provided opening remarks and later, each fellow, along with a faculty from their sponsored department, came up and introduced themselves in English and/or Japanese in front of the audience.

At the party, the ambassador from the Republic of Madagascar, H.E Ms. Mireille Rakotomalala, and representatives from the fellows' embassies of Bosnia and Herzegovina, China, Egypt, and Myanmar also attended and offered words of encouragement to the fellows to study hard.

JASMEE conference presentation award

At the annual Japan Society for Medical English Education (JASMEE) Academic Meeting, the Kenichi Uemura award is awarded to the speaker who made the best presentation in terms of both academic content and presentation technology. An award ceremony is then held for the recipient at the next year's academic meeting.

At the 22nd JASMEE Academic Meeting from August 3-4, Associate Professor Kris "Siri" Siriratsivawong (Medical Education Office) was awarded the 15th Kenichi Uemura award for his presentation "Setting up for success: A workshop

for Japanese medical students in preparation for overseas clinical electives" at last year's meeting and Associate Professor Michael Myers (International Exchange Center) was awarded

honorable mention for his presentation "Study-abroad program for first-year students at Japanese comprehensive medical university" last year.

Dr. Siri's presentation was about a clinical reasoning and English medical interview and case presentation workshop developed with the International Exchange Center. The purpose of the workshop is to help prepare medical students who are planning to attend an overseas clinical elective. Dr. Myers's presentation described the activities and goals of an overseas summer program for 1st-year students that the IEC has operated in collaboration with Portland State University International Special Programs since 2006. Over 300 students have participated in this program!

Previous exchange students

**5th-year, Medicine:
University of the Philippines**

What did you learn/observe as a result of this exchange?

I learned a lot about thoracic and cardiovascular surgery during my stay here – both open heart and interventional surgeries. It was interesting to see both types being practiced here at Showa University, because most of the ones being done in my university are open heart surgeries only.

**5th-year, Pharmacy:
Taipei Medical University**

Let us know your opinion of Showa University

Wonderful place for international exchange. I was impressed with how many students rotate through and how many people can speak English. Having people like Dr. Hashimoto...respond to communication was very helpful and made the whole experience run smoothly from before I came to Japan to the day I left.

**5th-year, Dentistry:
Mahasaraswati University Denpasar**

Tell us about your good experience or good memories.

The hospitality shown by Showa members is special. Being able to experience the modern tools used and learn beneficial information has been an unforgettable memory.

New staff profile: Noriko Ueda

It is really an honor to join the International Exchange Center, and to be able to help faculty and students from other countries who have international experiences with me.

I was born and raised in Osaka, and I like doing yoga, visiting temples and shrines, and eating! Please let me know if you have "to recommend list" of temples, shrines, restaurants or bakeries.

My major at the university was English, and I always try to have as much international experiences as possible. For example, I've gone

on a homestay, traveled, studied in the USA, worked at the Honorary Consulate General in Kobe, and worked in the USA as university faculty. Those experiences, especially taught me not only the cultures and language but also how to communicate with people and express myself, and made me re-notice what a beautiful country Japan is. Sadly, most of us Japanese are not good at expressing our feelings and what we want to do, and don't know our own culture and country. I feel "to know other cultures is also to know ourselves", so it is my pleasure to help faculty, students, exchange students to have a variety of international experiences.

MEMORANDUM OF UNDERSTANDING

Between D A PANDU MEMORIAL R V DENTAL COLLEGE & HOSPITAL
and SHOWA UNIVERSITY SCHOOL OF DENTISTRY

This "Memorandum of Understanding" (MOU) is entered into on the MARCH 29TH day of 2019 by and between the D A Pandu Memorial R V Dental College and Hospital (DAPMRVDC) and Showa University School of Dentistry (SUSD). DAPMRVDC and SUSD agree to explore the possibility of developing the highest quality programs to advance the needs of DAPMRVDC and SUSD. DAPMRVDC and SUSD are hereafter collectively referred to as the "Parties".

Introduction

Both institutions recognise the following commonalities:

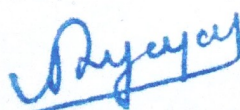

1. The compatibility of the direction and interest of their research and teaching
2. The significant roles that each play as leaders in higher education, teaching and research within their respective countries.

Exploration of Collaboration

DAPMRVDC and SUSD aspire to sign a MOU as a way to develop a collaborative relationship based on the following:

- The exploration of the development of educational exchanges, including student and faculty exchange.
- The exploration of the development of educational programs, including leadership development, program development and training courses.
- The feasibility of collaborating on the design, development and implementation of workshops and conferences.
- The exchange of academic materials and other information as feasible.

Through the individuals listed below, the parties aim to encourage contact and cooperation among their faculty members and departmental units. Both Parties agree to actively seek sponsorship from various local, national and international funding sources in support of such collaborative educational activities.

This MOU serves as an institutional framework for collaborative activities. Specific agreements would need to be drafted by the Parties in the case that the exploration of these areas leads to further developments. These agreements would need to be approved by the authorities at each institution. Nothing in the MOU shall be construed as creating any legal relationship between the Parties.

This MOU shall be binding the laws of land of the Parties. Both Parties understand the financial arrangements under this MOU would have to be negotiated and would depend on specific activities and availability of funds. Any expense incurred by either party would be subject to individual agreements on a case-by-case basis. The Parties also recognise that intellectual property terms would need to be included in subsequent agreements, as appropriate.

This MOU is non-exclusive and would become effective on the date of signing. The MOU could be renewed in writing every three years upon mutual consent of the Parties. The MOU may be reviewed in one and half years to assess the results.

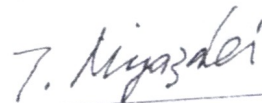

This MOU may be amended or further developed by means of written consent on the part of the signatories or their designated representatives. The MOU may be terminated with at least ninety days advance written notice. Notices must be sent to the individuals and addresses indicated below:
